PROFILE

I am a Software Developer who is personate about solving problems and scaling it with Technology

EXPERIENCE

Full Stack Developer, Infoswap NG — June 2020 - August 2020

Single handedly built an advertisement website and applied changes both on Client's and Users(Prior to client's approval) demand while working remotely with a foreign client

Wrote frontend codes in-spite my niche and managed both the server and database

Full Stack Developer, Messiah High School, Akure — March 2019- September 2019

Single handedly built a fullstack e-portal for my school. Wrote both frontend and backend codes using Bootstrap, HTML 5, CSS3, JS, Python, Django. Got a Punch Newspaper Interview

Freelance Software Development - July 2021 - Till date

Book Store RestfulAPI

Developed and Documented a Restful API which allows users to get books of their choice using Django Rest Framework. It has all the CRUD functionalities. Wrote quite a number of validations for all the forms. The book gets converted to pdf and gets downloaded immediately they pay using webhook

Ecommerce Website

Built an Online Store with frontend-backend codes which allows user to save to cart, filter to a category of products they want, order products etc. Integrated online payment using Flutterwave endpoint for users who want to pay for all the products in their cart.

News and Weather Restful API

Built a RestAPI which fetches the present Weather of the city queried and News of the query passed. Used Postman to test my Post and Get request. The more I learn, the more I make commits to this projects and build more

EDUCATION

Messiah High School — Secondary School leaving certificate (SSCE) 2015- 2021

Oluwatosimile Montessori School - Primary six certificate - 2015-2012

SKILLS

Python; Django; FastAPI; DRF; Swagger; Basic Ajax; Javascript; NodeJS

Heroku; MongoDB, Netlify, Git and Github, CI/CD

INTEREST

Gaming, Travelling, Cars, Racing Game, Film making

MORE

I have really been eager to solve problems and scale them which prompted me to start coding as that is the fastest way to solve problems now. I was a member of Jet Club when I was in Secondary School. I was also the Assistant Senior boy during my set. I am very good at gaming although my friends argue it
